EDUCATION

The Ohio State University, College of Engineering **Columbus, OH**
Bachelor of Science in Computer Science and Engineering *May 2027*

- Specialization: Artificial Intelligence. Minor: Fashion and Retail Studies
- Relevant Coursework**:** AI, Data Structures and Algorithms, Software Development and Design, Object-Oriented Programming, Computer Organization, Machine Learning, Web Applications, Computer Networking, Databases, Operating Systems, Statistics, JUnit Testing Methodologies, Neural Networks

RESEARCH EXPERIENCE

The Ohio State University – Computer Science & Engineering **Columbus, OH**
Undergraduate Researcher, Deep Reinforcement Learning (Advisor: Dr. Brijesh Soni) *May 2026 – Present*

- Designing a Deep Q-Network (DQN) agent that picks the best frequency band (sub-6 GHz, mmWave, sub-THz) for each time slot in multi-band 6G networks, so the device uses as little power as possible while still hitting a target data rate.
- Comparing the closed-loop DRL approach against LSTM/Transformer rate-forecasting baselines from prior lab work (IEEE GLOBECOM 2023).
- Building training environments in PyTorch from the lab's dataset, extended with DeepMIMO and NYUSIM channel simulations.
- Writing an undergraduate honors thesis (CSE 4999) proposal and research funding applications (Honors & Scholars Enrichment Grant, College of Engineering URS).

WORK EXPERIENCE

Student Luxe **London, UK**
CRM Intern *June 2025 – August 2025*

- Automated pricing and booking workflows using JavaScript, Google Sheets APIs, and Monday.com, reducing manual operational work by 90%.
- Built dynamic PDF generation templates on the Eledo, streamlining customer confirmations and payment plan documentation.
- Integrated workflows across Monday.com, Squarespace, and Eledo improving CRM data consistency and reducing manual data entry.

The Ohio State University Department of Sociology **Columbus, OH**
Student Technical Consultant *July 2026 – Present*

- Diagnose hardware, software, and system issues while assisting users with technical setup and problem resolution.
- Support day-to-day IT operations and maintain reliable technology across the department.

The Ohio State University Physics Department **Columbus, OH**
Research Building Office Assistant *August 2024 – August 2026*

- Analyzed and organized 10,000+ delivery records using spreadsheets to improve package tracking and operational efficiency.
- Coordinated events and streamlined administrative workflows and operations for visitors and staff.

PROJECTS

AI-Powered Closet & Outfit Recommendation Application

- Developed a full-stack outfit recommendation app using Next.js, Supabase, and the Groq API
- Integrated AI-powered outfit generation, backend APIs, and cloud-based authentication/storage using Supabase

Artificial Neural Networks & LSTM for Prediction

- Developed machine learning models using TensorFlow and Keras for classification, regression, and time-series prediction.
- Built an LSTM model using 50 memory units to predict monthly airline passenger trends from sequential historical data.

LEADERSHIP & INVOLVEMENT

Ohio State Entrepreneurship and Innovation Scholars **Columbus, OH**
Social Media Chair *August 2023 – August 2024*

- Led brand-aligned digital content strategy on Instagram using Canva and design tools
- Collaborated with student leaders to execute outreach campaigns and strengthen program visibility.

Scarlette Magazine - OSU **Columbus, OH**
Model and Writer *August 2023 – Present*

- Modeled in 4 published issues and contributed fashion trend articles for the website and print issues.

LICENSES & CERTIFICATIONS

Google Data Analytics *Foundations: Data, Data Everywhere, Ask Questions to Make Data-Driven Decisions, Prepare Data for Exploration*
Anthropic Claude 101, AI Fluency Framework & Foundation

SKILLS

- **Programming Languages:** Python, SQL, HTML/CSS, Java, C, JavaScript, Assembly, MATLAB, Ruby, VHDL
- **Frameworks & Tools:** Node.js, Angular, Git, PostgreSQL, Docker, REST APIs, Next.js, Supabase, React, Typescript
- **Cloud & Platforms:** AWS (introductory), Google Cloud, Monday.com, Power BI
- **Other Skills:** Workflow Automation, Web Development, Data Analysis, API Integration, Debugging, Version Control, Front-End Development, Object Oriented Programming

AWARDS AND HONORS

- Ray Greenly Scholar — NRF Foundation (2025)
- Entrepreneurship and Innovation Scholar (2023-2024)
