

EDUCATION

The Ohio State University — *Columbus, OH*

B.S. Computer Science & Engineering (Specializing in Artificial Intelligence) — *May 2027*

Minor: Consumer Science: Fashion and Retail Studies

Relevant Coursework: Software Components, Software Development and Design, Data Structures and Algorithms, Object-Oriented Programming, Discrete Structures, Assembly Language Programming, Computer Organization, Intro to AI and Machine Learning, Web Applications, Computer Networking, Databases, Operating Systems, Calculus I+II, Probability/Statistics, JUnit Testing Methodologies

AWARDS AND HONORS

Ray Greenly Scholar — NRF Foundation (2025)

Recognized nationally for leadership, technology skills, and potential in retail innovation.

Entrepreneurship and Innovation Scholar (2023-2024)

WORK EXPERIENCE

Student Luxe, CRM Intern— *London, UK | June 2025 – July 2026 | 8 weeks*

- Engineered automated PDF generation workflows on the Eledo platform by integrating dynamic data from Monday.com.
- Built workflow automation systems using JavaScript and Google Sheets APIs, reducing manual operational workload by 90%.
- Configured and maintained data synchronization pipelines across Monday.com and Squarespace platforms.
- Debugged and optimized deployment workflows to improve operational efficiency and reliability.
- Collaborated across teams to implement technical solutions supporting large-scale customer operations.

Physics Research Building, Office Assistant – *Columbus, OH | August 2024 – Present*

- Analyzed and visualized large-scale delivery logs (10,000+ entries) to improve logistical operations.
 - Coordinated events and ensured smooth daily operations for visitors and staff.
 - Streamlined administrative workflows and improved communication channels.
-

PROJECTS

AI-Powered Closet & Outfit Recommendation Application

- Developed a full-stack outfit recommendation application using Next.js, Supabase, and the Groq API.
- Integrated AI-powered outfit generation based on user wardrobe data and real-time weather conditions.
- Built backend APIs and database workflows for clothing storage, recommendations, and user management.
- Implemented cloud-based storage and authentication using Supabase.

Artificial Neural Networks & LSTM for Prediction

- Developed machine learning models using TensorFlow and Keras for classification, regression, and time-series prediction.
 - Designed LSTM architectures for wireless channel prediction using sequential datasets.
 - Applied preprocessing pipelines including feature scaling and train-test splitting.
 - Evaluated model performance using accuracy metrics and Mean Squared Error (MSE).
-

LICENSES & CERTIFICATIONS

- **Google Data Analytics:**

Foundations: Data, Data Everywhere — June 2024

Ask Questions to Make Data-Driven Decisions — July 2024

Prepare Data for Exploration — August 2024

Other Skills: Social Media Management, Content Creation, Event Coordination, Customer Service, Communication, Multitasking, Teamwork, Problem Solving, Resourceful, Quick Learner

SKILLS

Programming Languages: Java, Python, C, JavaScript, HTML/CSS, SQL, Assembly, MATLAB, Ruby, VHDL

Frameworks & Tools: Node.js, Angular, Git, PostgreSQL, Docker (basic), REST APIs, Next.js, Supabase

Cloud & Platforms: AWS (introductory), Google Cloud, Monday.com, Power BI, BigQuery

Skills: Workflow Automation, Web Development, Data Analysis, API Integration, Debugging, Version Control, Technical Documentation, Front-End Development, Object Oriented Programming

LEADERSHIP & EXTRACURRICULARS

- **Social Media Chair – Entrepreneurship & Innovation Scholars**

Led brand-aligned digital content strategy on Instagram using Canva and design tools. Coordinated community events and supported cross-functional marketing efforts.

- **Scarlette Magazine, Member**

Modeled in three published issues and contributed fashion trend articles for the website and print issue.

- **Yashovani, Volunteer**

Supported an NGO for people with visual impairments by reading and recording audiobooks to expand their educational access.
